

# THE NEW LU600

EXCEPTIONAL PERFORMANCE. EXCEPTIONAL SPEED.

The LU600 is LiveU's sixth generation portable unit for global newsgathering live sports and events coverage. Setting the standard again for IP bonding, the LU600 delivers the highest video quality and bitrate in the market (up to 20Mbps), fastest file transfer (80Mbps) and lowest delay (0.5 sec). The new LU600 is upgradable to H.265 HEVC, continuing LiveU's adoption of the latest encoding standards. Tailored to the needs of mobile journalists, the LU600 offers a new streamlined user interface, with an ultra-responsive 5.0 inch capacitive touchscreen. The unit comes in a specially designed smart backpack, with improved usability, remote control functionality and easy access to display, controls and interfaces.

- Highest video quality and bitrate: up to 20Mbps
- Fastest file transfer for FTP/S&F modes: up to 80Mbps\*
- Lowest end-to-end delay: 0.5 second\*
